Salman Al Husseini

AI Creative Director · Cinematic Advertising

Ideas with imagination. Direction with intent.

I develop advertising concepts and turn them into cinematic visual stories. Through ORAKTION, I bring together concept writing, AI creative direction and editing to create scenes that serve a product and its message, backed by experience in marketing and campaign leadership.

What I Bring

01 **An idea with a story to tell**

Advertising concepts, scripts and Modern Standard Arabic content. I develop visual and narrative angles that connect a product with an audience, from an advertising scene to an imaginative fantasy world.

02 **Direction that gives a scene presence**

AI creative direction and cinematic advertising for ORAKTION. I focus on composition, lighting, movement and pacing, bringing individual shots together into a clear visual narrative.

03 **Craft that completes the experience**

Professional Adobe Premiere Pro and CapCut editing, with attention to shot consistency and the relationship between sound and image. I also contribute voice performance and Arabic narration, and lead the Scarlet Arrow dubbing team, SAROVOX.

Skills

Advertising concepts · AI creative direction · Cinematic advertising · Script & content writing · Visual storytelling · Editing & pacing · Adobe Premiere Pro · CapCut · Fantasy & Arabic writing · Voice acting & voice-over · Creative team leadership · Content strategy · Social account management

See an idea become a scene

Explore ORAKTION ads and visual stories, then voice and writing samples.
